SUBJECT INDEX

Abdominal operations, liquid spray-on plastic film as a skin drape, 489 *ab*

Achilles tendon: subcutaneous lengthening, 382 *ab*

Adrenal cortex hormones: ACTH-induced melanocyte formation in cultures of goldfish caudal fin, studies, 297 *ab*
adrenalcorticoid hormones, effect on human lamellar bone; quantitive histologic measurements of resorption and formation indices, 63
hormonal influence on goldfish pigment cells in vitro, 297 *ab*

Aging and the kinetics of human osteon formation, 383 *ab;* 386 *ab*

Allergy: emergency aftermath of modern therapeutics, 491 *ab*
hepatitis and toxicity; beta-propiolactone plus ultraviolet irradiated plasma, clinical evaluation for, 385 *ab*

Amyloidosis: (amyloid tumor) localized of the urethra, 492 *ab*
genetic, with special emphasis on familial Mediterranean fever, 343

Anemia (hemolytic), skin rash and hepatitis caused by para-aminosalicylic acid, 380 *ab*

Aneurysm: intracranial, review, 251
of the left ventricle, surgical treatment, 489 *ab*
pseudo of the heart; case report and review of literature, 157 *ab*

Angular projection of medical illustrations, 145

Antibodies: genetic aspects of salivary secretion of isoagglutinins, 384 *ab*

Anticoagulant therapy, long-term; complications and control in a review of 978 cases, 298 *ab*

Antinuclear factors, tumor imprints as a source of nuclear substrate for the detection of, 488 *ab*

Arm, swollen, following mastectomy, management of, 380 *ab*

Art: and drawing in psychotherapy, 405
in psychotherapy, 301

Atropine and eserine, effects of vagal stimulation on retrograde pressure in the sinus node artery, 23

Autografts (venous) in femoropopliteal arterioplasty, 492 *ab*

A-V node of the dog, anatomy, 379 *ab*

Bacteriuria, detection of, significant in humans; evaluation of various methods, 237

Basophilic granulocytes in inflammatory tissues of man, 160 *ab*

Basophilic leucocyte, mast cells in non-neoplastic diseases of man and their relationship to, 160 *ab*

Bechet's disease with neurological involvement, 205

Betaprone *see* Propiolactone (BPL)

Beta-propiolactone *see* Propiolactone (BPL)

Bile: and cholesterol acid metabolism in the mouse, effect of hyocholic acid on, 487 *ab*
acids using thin-layer chromatography, color detection of, 487 *ab*
do we need the one minute bilirubin? 447

Blood pressure recording; compression tank sphygmomanometer inflater, 323

Body water and water turnover determined with deuterium oxide added to food, studies, 297 *ab*

Bone: aging and the kinetics of human osteon formation, 383 *ab;* 386 *ab*
diseases, tetrachrome stain for fresh, mineralized bone sections, use in the diagnosis of, 379 *ab*
human, evidence of periodic changes in the rate of formation of individual osteons, 565
iron in osteoid seams and dentinal tubules, presence of, 557
kinetic curve of osteon formation, 507
kinetics of the resorption process in osteonal remodeling of diabetic ribs, 537
lamellar, physiology in diabetes mellitus, 495-572
resorption, age variations in the specific surface of Howship's lacunae as an index of human, 161 *ab*
resorption and formation foci in rib, numbers of, 527
resorption precedes formation at the cellular level, evidence that, 359

Bovine splenic homogenate, effect of gastrointestinal administration on hematopoiesis in man, 227

Bowel, small in ulcerative colitis, implication of involvement, 487

Breast cancer: meaning of a five-year cure, 494 *ab*
metastatic, comparison of 6α-methyl-9α-fluoro-17-acetoxy-21-deoxyprednisolone with fluoxymesterone and methyl prednisolone in treatment of, 492 *ab*

Brunner's glands, tumors of, massive gastrointestinal hemorrhage secondary to, 490 *ab*

Calcium: primary hyperparathyroidism with hypercalcemia; twenty-eight years before treatment, 327
studies on the ultrafiltration of serum calcium, 37

Calculi: spontaneous rupture of the kidney pelvis secondary to impacted ureteral calculus, 83

Cholesterol and bile acid metabolism in the mouse, effect of hyocholic acid, 487 *ab*

Cholinergic-blocking agents: effects of vagal stimulation, eserine and atropine on retrograde pressure in the sinus node artery, 23

Chromatography: thin-layer, color detection of bile acids using, 487 *ab*
comparison of caries-immune and caries-susceptible salivas, 297 *ab*

Chromosomes, abnormal; Turner's syndrome with XO/XX mosaicism, case presentation, 181

Colistin sulfate and sulfonamide, enhancement of inhibitory effect against gram-negative organisms, 383 *ab*

Collagen disease, L.E. cell; significance and relation to, 389

Compression tank sphygmomanometer inflater, 323

Congenital adrenocortical hyperplasia with Cushing's syndrome, 298 *ab*

Coronary disease: and myocardial infarction (ed.), 1
some epidemiological and familial aspects of coronary heart disease; report of pilot study, 162 *ab*

Crime: the medical illustrator and his potential in criminal identification, 49

Cushing's syndrome and congenital adrenocortical hyperplasia, 298 *ab*

Cysts (epidermoid): formation seventeen years following cutis graft repair of incisional hernia, 141

Cytology: of cells synthesizing specific proteins, 273
structural study of reticulum cell and monocyte production with quantitation of lymphocytic modulation of nonmultiplicative type to histiocytes, 386 *ab*

Dacron, elastic, arterial prosthesis, 298 *ab*

Data processing, bio-medical, some experiences and comments, 333

Dead fetus syndrome, 384 *ab*

Deafness: nerve in children, 155 *ab*

Dehydrogenases: conversion of DPNH dehydrogenase to DPNH-cytochrome reductase by thiourea, 488 *ab*
DPNH, cytochrome reductase correlation of enzymatic activity and the appearance of the EPR signal at g=1.94 in NADH dehydrogenase and its thermal breakdown products, 487 *ab*
lactic dehydrogenases of yeast, 488 *ab*
problems and controversies in the field of the respiratory chain-linked dehydrogenases, 491 *ab*
studies on the respiratory chain-linked reduced NADH. IV. transformation of the dehydrogenase into cytochrome *c* reductase-diaphorase by the action of acid-ethanol, 493 *ab*
studies on respiratory chain-linked. V. transformation of DPNH dehydrogenase to DPNH-cytochrome reductase and diaphorase under the influence of heat, proteolytic enzymes and urea, 155 *ab*

Dentinal tubules and osteoid seams, presence of iron in, 557

Desferrioxamine B; treatment of transfusion hemosiderosis, 5

Detrusor dysfunction, dyssynergic, in the apparently normal female, 157 *ab*

Deuterium oxide added to food in studies to determine body water and water turnover, 297 *ab*

Diabetes mellitus: below-knee amputation in patients with diabetes mellitus, 153 *ab*
cortical area of diabetic rib, 547
kinetic curve of osteon formation, shape of, 507
kinetics of the resorption process in osteonal remodeling of diabetic ribs, 537
lamellar bone physiology in, 495-572
numbers of bone resorption and formation foci in rib, 527
pilot study of lamellar bone physiology in, 55
presence of iron in osteoid seams and dentinal tubules, 557

Diabetic amyotrophy; two cases, 135

Diverticulitis, changing aspects in surgery, 490 *ab*

Dog, anatomy of the A-V node, 379 *ab*

Drawing and art in psychotherapy, 405

Drugs: allergic emergency aftermath of modern therapeutics, 491 *ab*

Dyssynergic detrusor dysfunction in the apparently normal female, 157 *ab*

Edsel B. Ford Lecture, 1964, 477

Elastic dacron arterial prosthesis, 298 *ab*

Electron microscopy: of human small intestine mucosa in Whipple's disease, 494 *ab*
of Whipple's disease, 421
observations on the cell types of the salamander pituitary gland, 385 *ab*

Encephalitis following modified measles, 201

Endocarditis, Staphylococcus albus (epidermidis): report of 16 cases between 1953 and 1962, 383 *ab*

Enteritis, regional, sociological aspects, 317

Enzymatic activity, correlation of and the appearance of the EPR signal at g=1.94 in NADH dehydrogenase and its thermal breakdown products, 487 *ab*

Erthroblastic hypoplasia (congenital); treatment of transfusion hemosiderosis with desferrioxamine B, 5

Eserine and atropine, effect of vagal stimulation, on retrograde pressure in the sinus node artery, 23

Extremities, badly damaged, experiences in salvage of, 156 *ab*

Familial Mediterranean fever: genetic amyloidoses, with special emphasis on, 343

Femoral expansion in aging women; implications for osteoporosis and fractures, 492 *ab*

Femoropopliteal arterioplasty, venous autografts in, 492 *ab*

FeOOH crystals, effect of aging and concentration upon the growth of which form Schiller layers, 494 *ab*

Fetus, dead, syndrome, 384 *ab*

Fibrinolysis, acute fatal with gastric carcinoma, 494 *ab*

Fistula: gastrocolic and gastrojejunocolic, 384 *ab*

Formation foci and bone resorption, numbers of in rib, 527

Fluorouracil: 5-fluorouracil treatment of liver metastases by continuous hepatic artery infusion via Cournand catheter; results and suitability for intensive post-surgical adjuvant chemotherapy, 154 *ab*

Fractures and osteoporosis, femoral expansion in aging women; implications for, 492 *ab*

Gangrene (arteriosclerotic), conservative therapy for utilizing an intermittent compression unit and pressure-gradient dressings, 295 *ab*

Gastrectomy (post), stomach remnant, development of solitary gastric polyp in, 380 *ab*

Gastric carcinoma, acute fatal fibrinolysis with, 494 *ab*

Gastrointestinal hemorrhage, massive, secondary to tumors of Brunner's glands, 490 *ab*

Genetics: aspects of salivary secretion of isoagglutinins, 384 *ab*
amyloidoses, with special emphasis on Familial Mediterranean fever, 343

Grafts (skin): repair of incisional hernia; epidermoid cyst formation 17 years following, 141

Gram-negative organisms, enhancement of inhibitory effect against, with colistin sulfate and certain sulfonamides, 383 *ab*

Hand: pneumatic splinting of hand injuries, 157 *ab*

Heart muscle: labile flavin adenine dinucleotide of heart muscle preparations, 488 *ab;* further studies, 491 *ab*

Hematopoiesis, effect of gastrointestinal administration of bovine splenic homogenate in man, 227

Hemochromatosis, pathology of the cardiac conduction system in, 489 *ab*

Hemorrhoids, internal, nonoperative treatment, 379 *ab*

Hemosiderosis (transfusion); treatment with desferrioxamine B, 5

Henry Ford Hospital, Medical Society, program 1963-64, 151

Hepatitis: propiolactone plus ultraviolet-treated plasma without hepatitis, 381 *ab*
skin rash and hemolytic anemia caused by para-aminosalicylic acid, 380 *ab*
toxicity and allergy; beta-propiolactone plus ultra-violet irradiated plasma; clinical evaluation, 385 *ab*

Hernia: repair of incisional; epidermoid cyst formation 17 years following cutis graft repair, 141

Hip: congenital dysplasia, subluxation and dislocation of the hip in stillborn and newborn infants; anatomical-pathological study, 162 *ab*

Hormonal influence on goldfish pigment cells in vitro, 297 *ab*

Hormone, growth, utilization of ammonia nitrogen, administered by intragastric, intraperitoneal, and subcutaneous routes; effects of growth hormone, 493 *ab*

Hyocholic acid, effect of on cholesterol and bile acid metabolism in the mouse, 487 *ab*

Hypercalcemia; primary hyperparathyroidism with; twenty-eight years before treatment, 327

Hyperparathyroidism: primary hyperparathyroidism with hypercalcemia; twenty-eight years before treatment, 327
neuropsychiatric disorders in primary hyperparathyroidism, 382 *ab*

Hypophysectomy, effect on steroid -C^{14} metabolism in the rat, 153 *ab*

Hypotension: current status of deliberately induced, 296 *ab*
idiopathic orthostatic, 161 *ab*
refractory, 365

Hysterectomy, vaginal, dynamic topography of the lower ureter in, 385 *ab*

Idiopathic orthostatic hypotension, 161 *ab*

Ileitis, regional: sociological aspects of regional enteritis, 317

Illegitimacy: prescription for the alleviation of welfare abuses, 75

Intermittent compression unit and pressure-gradient dressings, in conservative therapy for arteriosclerotic gangrene, 295 *ab*

Knee: below-knee amputation in patients with diabetes mellitus, 153 *ab*

Labile flavin adenine dinucleotide of heart muscle preparations, 488 *ab;* further studies, 491 *ab*

Lacunae, Howship's; age variations in the specific surface of, as an index of human bone resorption, 161 *ab*

Lamellar bone: physiology in diabetes mellitus, pilot study, 55
effect of adrenalcorticoid hormones on; quantitative histological measurements of resorption and formation indices, 63

L.E. cell: significance and relation to collagen disease, 389

Lip, lower, mucoepidermoid tumor; report of two cases, 380 *ab*

Liver: 5-fluorouracil treatment of liver metastases by continuous hepatic artery infusion via Cournand catheter; results and suitability for intensive post-surgical adjuvant chemotherapy, 154 *ab*
limitations of the I^{131}-rose bengal liver function test in the differential diagnosis of jaundice, 161 *ab*
pathology of liver cirrhosis in patients with cystic fibrosis of the pancreas, 162 *ab*
primary carcinoma of the liver; autopsy study of 60 cases, 386 *ab*
surgery of liver abscess; use of newer techniques to reduce mortality, 381 *ab*
treatment of disseminated carcinoid tumors including hepatic-artery catheterization, 160 *ab*

Liver function: do we need the one minute bilirubin? 447

Lupus erythematosis, systemic; quantitative appraisal; diagnosis by point system, 223

Lymphangiography, and radio-isotopic tracers Na_{22} and RISA genetic lymphedema studied by; preliminary report, 295 *ab*

Lymphedema, genetic as studied by venography, lymphangiography, and radio-isotopic tracers, Na_{22} and RISA; preliminary study, 295 *ab*

Lymphocytes: structural study of reticulum cell and monocyte production with quantitation of lymphocytic modulation of nonmultiplicative type of histiocytes, 386 *ab*

Marfan's syndrome, myocardial infarction and unusual myocardial degeneration; with dissection of right coronary artery and aorta, 161 *ab*

Myocardiopathies, an etiologic concept concerning obscure, 489 *ab*

Myxedema, muscular system in, 158 *ab*
nervous system in, 159 *ab*

Naphthylisoproterenol studied by direct perfusion of the sinus node, chronotropic and vagal-blocking actions of, 379 *ab*

Neural compression syndrome, diagnostic criteria for distinguishing cervical disk herniation from spondylosis in, 490 *ab*

Neurological involvement with Bechet's disease, 205

Neuropsychiatric disorders in primary hyperparathyroidism, 382 *ab*

Nitrogen (ammonia), utilization of, administered by intragastric, intraperitoneal, and subcutaneous routes; effects of growth hormone, 493 *ab*

Norethynodrel, thromboembolic disease associated with; report of six cases, 383 *ab*

Oligophrenia, hereditary spino-cerebellar ataxia and congenital cataracts; report of two cases of Marinesco-Sjögren syndrome, 395

Osteoblastic activity, variations in with age, by the osteoid seam index, 163 *ab*

Osteoid seams: and dentinal tubules, presence of iron in, 557
index, variations in osteoblastic activity with age by the, 163 *ab*

Osteon: closure, radial rate of, measured by means of tetracycline labelling, 499
cross section, size of, 517
formation, shape of kinetic curve, 507
(individual) in human bone, evidence of periodic changes in the rate of formation, 565

Osteoporosis and fractures, femoral expansion in aging women; implications for, 492 *ab*

Otologic research, 298 *ab*

Pain: acute abdominal in aged patients; analysis of 200 cases, 159 *ab*
international symposium, 479

Pancreas: cystic fibrosis of, pathology of liver cirrhosis, 162 *ab*

Para-aminosalicylic acid causing skin rash, hepatitis and hemolytic anemia, 380 *ab*

Pigment cells (goldfish) in vitro, hormonal influence on, 297 *ab*

Pituitary gland: of the salamander; observations on cell types; electron microscopic study, 385 *ab*
tumors, treatment of; analysis of 100 cases, 154 *ab*

Plasma: propiolactone plus ultraviolet-treated, without hepatitis, 381 *ab*
ultraviolet irradiated and beta-propiolactone; clinical evaluation for hepatitis, toxicity and allergy, 385 *ab*

Pneumatic splinting of hand injuries, 157 *ab*

Polyp, development of solitary gastric in postgastrectomy stomach remnant, 380 *ab*

Premolars of Alaskan Eskimos and Indians, occlusal anomalous tubercles on, 381 *ab*

Pressure-gradient and intermittent compression unit in conservative therapy for arteriosclerotic gangrene, 295 *ab*

Propiolactone (BPL): plus ultraviolet irradiated plasma; clinical evaluation for hepatitis, toxicity and allergy, 385 *ab*
